Dear June,

Not too many events have been taking place around the halls of A. H. S. this week. Our baseball team was defeated by Dan River Friday afternoon. This, of course, broke our undefeated record, but we are pulling for the team throughout the remainder of the season. Because of weather conditions, our scheduled game today was postponed.

Friday night we were quite pleased at seeing so many of our patrons at the dedication of the gymnasium. It was certainly wonderful to know that we possess the official keys to this marvelous structure. Dr. Harold K. Jack, State Supervisor of Physical Education, presented a most interesting talk, and this was followed by activities by the Physical Education classes. The tumbling events were apparently most enjoyed by the spectators. We are very glad that the program was successful and we trust that we shall all benefit a great deal from our new gym.

Tomorrow each class is going to elect candidates to run for the May Court. May Day is to be held on May 6. This is always a big event in our school year. I will tell you the results of the election next week.

The Hi-Y and Tri-Hi-Y clubs met today. Dr. C. A. Collins, Jr. talked to the clubs, using as his theme, prayer. It was most inspirational, and we were so pleased to have Dr. Collins with us. The Sr. Tri-Hi-Y elected their new slate of officers for next year. They are:

President, Shawn Mabley
Vice-pre., Peggy Henry
Secretary, Dorothy Painter
Treasurer, Patsy Robertson
Representative, Barbara Woolridge
Historian, Nancy Martin

This concludes the happenings around A. H. S. this week. Be looking for more news from me next week, same time.

Til then,
Jane.

GRAIN STORAGE "NO PROBLEM" IN 1955

Sufficient storage space for Virginia grain is in porspect for 1955, according to Dr. J. L. Maxton, agricultural economist, VPI Agricultural Extension Service.

He bases his prediction on a recent survey of the situation through county agricultural agents. "It should not 'be too difficult," Maxton 'says, "in most instances to find a suitable storage for grains either under the loan program or otherwise."

This situation contrasts sharply with last year when early season predictions promised a high storage problem and farmers were urged to construct more on-farm storage space.

The survey results show 237 commercial grain warehouses or elevators with a total capacity of 7,578,000 bushels. Commercial capacity has increased over a million bushels since 1950. Since that year farm storages have also increased by 773 units with a capacity of well over a million bushels.
